

TitlePoint Xpress

Create more time in your busy day

More than a search application, TitlePoint Xpress[®] adapts to your workflow with valuable time-saving features, like the ability to search up to seven databases to create a finished report using Xpress Search, and to view source documents by clicking a record in your title chain.

Featuring

Basic search functions

- Property
- Party Name
- Grantor-Grantee
- Starter Record
- Instrument
- Image
- Combination Search

Advanced search functions

Xpress Search uses the legal description from a property's last conveyance to search assessor, recorder, tax collector, starter, grantor-grantee and geographically-posted plants and map image databases, creating a comprehensive search package.

Legal & Vesting Report scans assessor, recorder and document image databases to create a report that identifies current property owners and includes a vesting clause, legal description and copy of the conveyance instrument.

Integrated document image viewing

Open and view document images using iView, the integrated image viewer. Use the OCR feature to convert image areas in a document to text. Annotate, rotate and zoom to enlarge images.

Order management

Create a comprehensive search order that includes a chain, tax data, document images and maps.

Modify your search criteria and update your search order. The order history details changes made over the life of the order.

Save your order in PDF or TIFF file format, or automatically spool to a network printer.

Technical and support information

User configuration

- Set default and combination search parameters
- Define how you want search results displayed
- Establish protocols for order maintenance

Web browser and plug-ins supported

- Microsoft[®] Internet Explorer[®] v7.0 or higher and Google[®] Chrome[®]
